Happy Tails Corner

Recent transformations that make it all worthwhile.

Before: Manny's Arrival

After: Manny's Update

Manny arrived to us in August 2025 from an unwanted litter who was simply let outside and hardly, if ever, touched. Sadly upon arrival, he and his siblings, who had never known human affection or inside a house were petrified of even their own shadows at only 3 months old and in desperate need of TLC. With the help of foster homes and volunteers, he blossomed each day until he finally found a forever home where he now shines and thrives!

From Manny's Family:

"We are celebrating Manny's first birthday today! I wanted to share some pictures with you and thank you for bringing him into our lives; he is such a sweet boy and we love him so much"

Impact by the Numbers

In the month of May, we have had 17 adoptions! That means 17 dogs and puppies have found forever families and 17 lives changed for the better.

We have to give a HUGE shout out to all of our foster families and volunteer families who come to our Kahoots adoption events every Saturday to spoil our pups with love, socialization and support.

We could not do it without the support of all of these incredible humans!

Rescue Story: Thor

Thor was rescued by a Good Samaritan after he was being shot at by a neighboring property and ran for help...all while dragging behind a severely injured, dead leg. Sadly, the only option was amputation but honestly, Thor seems to be doing much better without it. The life and hope in his eyes are gleaming, he hops up and down the bed, stairs, and even the car (he loves car rides). He is one of the sweetest dogs we know and everyone who meets him falls in love. Yet, he is still somehow waiting for a home! He is house trained, crate trained, leash trained, loves car rides, and is wonderful with children and all other dogs. He's ready for adoption now!

Anza/Aguanga Spay/Neuter Program

As part of our mission, our #1 priority is to educate our communities and instill the importance of spay/neuter; assisting in helping to achieve this where we can. Starting within our community, a low-income rural city, we want to make a change. In 2025, we fixed just over 800 dogs/cats from Anza and Aguanga.

In the month of May, we have fixed 44 community pets.
As of 2026, we have fixed 351 total community pets.

Want to help contribute to battling the overpopulation crisis and help put an end to euthanasia in shelters due to lack of space? Please consider donating. No amount is too small and it all adds up!
