For the month of January Hope Ranch Animal Sanctuary was contacted, by people in the community of Anza and Aguanga, to help

41 dogs and 190 puppies.

It has been overwhelming for all of us to scramble to try to find placement for these precious dogs and pups.

We have reached out to other reputable rescues for help but everyone is full.

Hope Ranch is desperately looking for fosters.

The good news is we have fixed 48 dogs in January. We are so thankful for a generous donor who made this happen.

Help us fight this battle and become a foster or donate for Spay and Neuter.

We are staying optimistic that we will fix the over population of dogs in our community by providing free spay and neuter for the needy.

Four 2 week old pups were abandoned by their mom. They were born under an old shack. Mom took away one puppy and never came back for the other 4.

The pups need to be bottle-fed every 3 hours.

Gunilla's granddaughter enjoys helping.

Its Raining Puppies

Did you know that each dog has their own unique print on their nose? It's True.
Dogs noses are like human finger prints.
No two are the same.
Now you can have your dogs nose scanned and stored in a data base.
Similar to a microchip.

Thank you to Rosati's Pizza for putting flyers on their pizza boxes of our adoptable dogs.

We thank a generous donor for these dogs houses and crates

Our food program for the needy dogs in our community is going strong.
We don't want people to give up their dogs because they cant afford the food.
Help us feed the hungry dogs.
